 SUZLON
 Sample No.:
 1757 - 1 - 43 - 22

 Winergy PEAB 4456.6
 Analyst/Test:
 DR / AFDATPCKF

COMMENTS The level of water contamination (0.2457%) is excessive and considered abnormal. Check for sources of water

High Water Content ingression and repair as necessary. The high level of wear (iron) suggests that an abnormal wear mode exists. Check this gearbox for excessive noise, vibration or high temperature.
